S102

Silicone Mold Release for Plastic and Silicone Molds

GENERAL DESCRIPTION

S102 is a silicone-containing, mold release that should be used for all plastic and silicone molds to insure long life in the molds. A thin film is all that is necessary for adequate release of parts.

S102 is a non-flammable system that can be shipped without a red label.

S102 is available in 1-gallon, 5-gallon, and 55-gallon containers.

SPECIFICATIONS
